

Certified Validation Report Template, Part A: Provided by Validator

Audit Information

Water System Name: Coachella Valley Water District (ID08 System)

Public Water System Identification (PWSID)¹: CA3310048

¹List only 1 PWSID, which should match the PWSID on the FWAS Instructions Tab. For Special cases where multiple water systems are connected with permanent two-way interties, list those additional PWSIDs in the Notes below and describe the water distribution system(s) configuration.

PWSID and Water System Configuration Notes (Provided to Validator by Water System):

Audit Period: FY2019

Validation Date: 11/16/2021

Sufficient Supporting Documents Provided: Yes

Water System Representatives

Steven Hernandez, Fernando Ruelas, Yesenia Reynoso, Glen Lubbe, William Wise, David Lacy

Validation Findings & Confirmation Statement

Key Audit Metrics:

Data Validity Score: 86 **Data Validity Band (Level):** Band IV (71-90) **Real Loss:** 1,125.83 gal / mile / day

Non-revenue water as percent of cost of operating system: 3.7% **Apparent Loss:** 127.08 gal / conn / day

ILI: 1.56

Certification Statement by Validator:

This water loss audit report has been Level 1 validated per the requirements of California Code of Regulations Title 23, Division 2, Chapter 7 and the California Water Code Section 10608.34.

All recommendations on volume derivation and Data Validity Grades were incorporated into the water audit. ☒

If not, rejected recommendations are included here:

Validator Information

Water Audit Validator: Kris Williams **Qualifications:** Water Audit Validator Certificate issued by the CA-NV Section of the AWWA

Certified Validation Report Template, Part B: Provided by Utility

Water System Name: Coachella Valley Water District (ID08 System)

Public Water System Identification (PWSID)²: CA3310048

²List only 1 PWSID, which should match the PWSID on the FWAS Instructions Tab. For Special cases where multiple water systems are connected with permanent two-way interties, those additional PWSIDs should have been listed in the Notes section on Page 1 by the Validator.

Water Audit & Water Loss Improvement Steps:

1. Steps Taken: Water System to identify steps taken in the preceding 3 years to increase data validity, reduce real loss, and reduce apparent loss as informed by the annual validated water audit:

- Pro-active investigation of account with zero consumption through the use of internal reports and a list provided the consultant WSO.
- Low consumption reports and procedures were put in place to capture accounts where a meter is possibly failing to register correctly.
- Implementation of internal procedures to replace leaking and or failed meters within two weeks of being notified.
- Pro-active replacement of consumption meters that are 20+ years old.
- Pro-active leak detection surveys.
- Source meter accuracy meter testing and calibration.
- Randomized customer meter testing.
- Reservoir storage tracking.

Utility Provided

2. Planned Steps (OPTIONAL): If your audit reflects negative real losses or the cost of non-revenue water is greater than 100% of the operating costs (issues for which your audit will not meet code requirements), you will be asked what steps you are planning in the coming year to address these issues. If you already know what steps you plan to take, you may list them here. If not, please prepare a response within 90 days (23 CCR Section 638.6[a]).
